SOFTWARE PROJECTS

Management system for book shop

Developed a comprehensive desktop application for a local book shop to efficiently manage inventory and sales.

Technologies Used:

Java, JavaFX (UI), MySQL (Database).

Key Features:

- Designed and implemented a user-friendly Dashboard using JavaFX.
- Managed real-time inventory tracking and automated stock level alerts.
- Integrated a MySQL database for secure data storage and retrieval.
- Developed reporting features to monitor daily sales and stock movements.
- Version Control: Managed source code using Git/GitHub.
